engage. discover. learn.

BOY Best Practices Checklist
Setting the Right Tone for the School Year

Before BOY Testing

- ◯ Communicate clearly with students about why BOY testing matters and how it helps their learning.
- ◯ Emphasize effort over scores.
- ◯ Prepare the environment: tech check, calm space.
- ◯ Balance expectations: it's one piece of data, not the whole story.

During BOY Testing

- ◯ Encourage pacing: remind students to take their time.
- ◯ Watch for stress: reassure anxious learners.
- ◯ Monitor environment: limit noise and tech issues.
- ◯ Take notes: observe effort & behavior beyond answers.

After BOY Testing

- ◯ Interpret scores as a data point, not the whole story.
- ◯ Pair BOY results with informal checks: games, quizzes, discussions.
- ◯ Focus on strengths first to build confidence.
- ◯ Stay flexible with group placements as you learn more.
- ◯ Share insights with colleagues & parents for aligned support.
- ◯ Talk to students: invite reflection in age-appropriate ways.

Classroom Culture in the First Weeks

- ◯ Build relationships: know interests & motivations.
- ◯ Set high expectations for growth.
- ◯ Create a safe, positive space where mistakes are part of learning.
- ◯ Keep learning joyful: use games, collaboration, and creativity to build confidence.

The Eurekii Difference

At Eurekii, we:

- ◯ Continuously assess in fun, low-stakes ways.
- ◯ Push students at or above grade level.
- ◯ Blend strengths-based learning with targeted support.
- ◯ Ensure students love the journey.

That's why 95% of students say they love their "Eurekii Time."
